About Me

I am a dedicated and results-driven professional with a strong background in technology and a passion for solving complex problems. With a solid foundation in python django full stack and react technologies.
　　I bring a unique blend of technical knowledge expertise and creativity to every project I undertake.

Professional Experience

EVENT MANAGEMENT WEB APPLICATION(hosted)

- www.dewdropsevents.com
- it will shows the event management highlights
- This help to submit the enquiries though the enquiry form
- Then the website owner get the email
- It also connect the APIs of Whatsapp,Istagram

EXPENSE MANAGER USING REACT

- This helps to manage the budget with our income
  https://github.com/AidaSoji123/EXPENSE_MANAGER-REACT-PROJECT.git

RECIPE PLANNER USING PYTHON DJANGO

- Here we can add reccipies , it shows below the add table
  there we can edit or delete the added recipies
  this will helps to extend my event management project.
